

# Nite Time (feat. Kate Walsh)

George Acosta

Time to go  
It's time to go  
Whatever this means  
He's happy it seems  
After night  
In boundless light  
He calls my name  
I do the same  
After this  
A simple kiss  
Return my eyes  
A true disguise  
(Echo) After this  
A simple kiss  
Return my eyes  
A true disguise  
So I'll be a fleeting sound  
A lightray out on the water  
And I'll know his secret name  
And tell him about the night time  
tell him about the night time  
tell him about the night time  
tell him about the night time  
Time to go  
It's time to go  
Whatever this means  
He's happy it seems  
After night  
In boundless light  
He calls my name  
I do the same  
So I'll be a fleeting sound  
A lightray out on the water  
And I'll know his secret name  
And tell him about the night time  
tell him about the night time  
tell him about the night time  
tell him about the night time
