

# Lonely Road

## The Sandals

Lonely road, we gotta walk it just a little bit farther  
Heavens knows it can't get any harder than it is today  
Lonely road, it's not ahead but is it getting farther  
Heaven knows it can't get any darker than it is today  
Who do you miss in times like this  
When your thoughts are filled with sadness and regrets?  
To who do you pray when you've lost your way  
And you've such a heavy load?  
Let me walk with you upon this lonely road  
Lonely road, empty kitchen and a brand new feeling  
Nothing's moving but my heart is reeling since you went away  
Lonely road, gotta walk it till I start forgiving  
Find another way to go on living without you today  
Who do you miss in times like this  
  
When your thoughts are filled with sadness and regrets?  
To who do you pray when you've lost your way  
And you've such a heavy load?  
Let me walk with you upon this lonely road  
Lonely road, you gotta walk it till the thought astounds you  
And you look and find that all around you, people walk with you  
Lovely road, you gotta walk it till you won't forget it  
That the point is never where you're headed  
It's what you're going through  
Who do you miss in times like this  
When your thoughts are filled with sadness and regrets?  
To who do you pray when you've lost your way  
And you've such a heavy load?  
Let me walk with you upon this lonely road, road
