If You Want Me

Y&T

If you want me, let me know
If you want me, just say so
If you want me, baby, I will be with youIf you're lonely and you need someone
I'll be waiting to take a chance
If you want me, oh, I'll be there with youWell, if it all turns out wrong
No, it just don't feel right
If it all turns out wrong
At least we know we tried
To fill this emptiness
That burns insideIf you want me, call my name
I'll be waiting, I feel the same
So if you want me, baby just let me knowIf you want me, baby, let me know
If you need me, baby, let it show
If you want my love
Baby, I will be with youWell, if it all turns out wrong
No, it just don't feel right
If it all turns out wrong
At least we know we tried
To fill this emptiness
That burns insideIf you want me, baby, let me know
If you need me, c'mon, let it show
If you want my love
I will be with youIf you're lonely and, oh, you need someone
I'll be waiting, just let it all come undone
If you want me, you need me
You know I will be with you
