

Around Merrily Carousel

Echo Orbiter

Ceramic horsey creeps about orbital path
Marble eyed filly, wood on a rooted base with a stiff stare

Play with me; Talk to me; Let me navigate you through the sky

Soaring high further from the ground
Reaching out touch the paisley clouds
We saw the sun hiding from the moon

Dream away from life
Weâ€™re just stars in the sky
Fading in the darkness
To let the brighter ones shine
Merry go round and round again

Closed for good my side, eyes will teach and always see
Itâ€™s an idea; The warmth from the wasting day felt so nice

The last sunbeams filter through the air
Dazzling display to say goodnight
We can go wherever we like

Dream away from life
Traveling through space and time
Whispered beauty of love
With moonlight bride by my side
Merry go round and round again
