Make Sure You're Home

Profyle

Baby baby since you've been away
The skies are gray, my world is fading
I see lovers walkin' 'round my way
The holiday, the celebratingWith everyone with smiles
Upon their face anticipating
But the smiles are not for me
'Cause deep inside my heart is achingWhen your out there on the road
I'm missing you, I can't hold on
Baby, on on this special day
Put your work asideMake sure you're home, baby, come home
This Christmas night, don't leave me home alone
Baby, come home, it's just not right, no it ain't
For you to leave me alone, make sure you're homeColored lights and Christmas ornaments
Through frosted windows, candles glow
Love is sharin' all the Christmas joy
And sculptured ice out in the snowThere's a fire burning bright
But you're not here to hold me tight
On my knees I hope the Angels hear my prayer
This silent nightWhen your out there on the road
I'm missing you, I can't hold on
Baby, on this special day
Put your work asideMake sure you're home, baby, come home
This Christmas night, don't leave me home alone
Baby, come home, it's just not right, no it ain't
For you to leave me alone, make sure you're homeI got a present waiting for you here when you get home, yeah
I can't wait to see you wrapped up in my arms, baby
All I want this year is that you get one precious gift
Share this special night, special night, share this special nightMake sure you're home, baby, come home
This Christmas night, don't leave me home alone
Baby, come home, it's just not right, no it ain't
For you to leave me alone, make sure you're homeEverybody sing
Ohh oh ohh oh ohh oh ohh ohh
Ohh oh ohh oh ohh oh ohh ohh
For you to leave me alone, make sure your homeMake sure your home
Ohh oh ohh oh ohh oh ohh ohh
Ohh oh ohh oh ohh oh ohh ohh
For you to leave me alone, make sure your homeMake sure your home
Ohh oh ohh oh ohh oh ohh ohh
Ohh oh ohh oh ohh oh ohh ohh

For you to leave me alone, make sure your homeMake sure you're home, baby, come home
This Christmas night, don't leave me home alone
Baby, come home, it's just not right, no it ain't
