

Here She Comes

The Androids

Do do, do do, do do do
Do do, do do, do do do I've got her stuck in my brain like a tattoo memory
I've just gotta say
That she's so hot I feel warm on a winters day
And the snow just melts away Come out and play, I can see that you move so great
We'll all just watch you dancin'
It hurts my brain just to think that you look like that
And not a bit of you is plastic Here she comes
She sees right through me
Her hair is long
She shakes that booty Here she comes
She's takin' over
My mind is blown
I'm a Casanova clown
(Do do, do do, do do do)
(Do do, do do, do do do) When she walks by all I hear is a lot of static
She blows me away
I've got her stuck in my brain like a tattoo memory
I've just gotta say Here she comes
She sees right through me
Her hair is long
She shakes that booty Here she comes
She's takin' over
My mind is blown
I'm a Casanova clown
(Do do, do do, do do do)
(Do do, do do, do do) I wonder if she knows what she puts me through
I wonder if she knows what she makes me do Here she comes
She sees right through me
Her hair is long
She shakes that booty Here she comes
She's takin' over
My mind is blown
I'm a Casanova Here she comes
She sees right through me
Her hair is long
She shakes that booty Here she comes
She's takin' over
My mind is blown

I'm a Casanova clown
(Do do, do do, do do do)
(Do do, do do, do do do)
