

Bad People

[honeyhoney](#)

I ain't the gatekeeper, I ain't the judge

I ain't the one, didn't love you enough

I'm just sitting in my own front yard,

wishin the rain didn't fall so hard.

And you got twisted, you got stuck

You listed in your own bad luck

Tried your best to be the worst

you must like it, that's your curse

Then don't think it won't come back to you

Bad people don't come from nothing at all

Bad people don't come from nothing at all
