

Won't Stand In Your Way

Feel

I wont try and make you smile
But if youre up for it just for a while
I wont stand in your wayLife is short and sometimes rough
But if youre up for not giving up
I wont stand in your wayYou can let the bad days wash down the drain
You can lift your head up out of the rain
Look in the mirror and start again
I wont stand in your wayYou can let the bad days wash down the drain
You can lift your head up out of the rain
Look in the mirror and start again
I wont stand in your wayNow you dont have to come with me
But if you wanna go where the birds fly free
I wont stand in your wayLife is short and sometimes rough
But if youre up for not giving up
I wont stand in your wayI won't stand in your way
I won't stand in your way
