

El Alfa

White Ninja

(intro)

If I come this long
pull me down
I can't listen but I can walk side-by

Sweet love, I can't wait for me
I can't sing
Baby, I can't sing
I've been such a fool

We will find a way to rave about
our worlds if we see a live starlight

You are sexy, baby
We could get high in this changing room
Gather some of the experience
Mood me tonight, to save your time

We could consume this flavored star
I can't feel it
It's it really 'bout the rock & roll?
for they bore about the way they know what's about

We could talk
to the sound of waves
'cause that's all we got
But baby, it's all right
Tip-toeing and all-down taste fine

Zip it up, come again,
fuck it up, come again

Super Sanchez hovering to see the horizon
Super Bass Sound, what a sound
Wait, don't hold
Turn us down and who do they see at all?
Why is it that the hipful der-erde
they all say a lie to look so stupid
Megaton black air dog

Auf wiedersehen, please comply
there's some way to change your mind
