I Won't

Akon

I won't, I won't
I won't, I won't
'Cause I came too far
Tryin' to know whats goin' on, echoes on my cellular phone
I noticed a couple items missing could it be the feds still listening?
See I outa' beat those cases dead time for the miscellaneous
And they proceed to keep on watching 'cause I outa seen them lately
Interrogated my mom, locked up half of my crew
But I can guarantee one thing that I won't let you do
I won't, let you lock me down
I won't, let you push me 'round
I won't, let you stop me now
I won't, 'cause I came too far
I won't, let you ruin my day
I won't, let you stop my pain
I won't, no not today
I won't, 'cause I came too far
Devil's always watchin' me, evil's always stockin' me
God has been protecting me, and thats how I got this far
'Cause when you look at me you see an angel
Can't believe I been through half the things that I went through
'Cause everyday I see your face, my face
Keep gettin' screwed by the human race, my race
So, please don't you judge me unless you know me
'Cause I won't let you
I won't, let you lock me down
I won't, let you push me 'round
I won't, let you stop me now
I won't, 'cause I came too far
I won't, let you ruin my day
I won't, let you stop my pain
I won't, no not today
I won't, 'cause I came too far
Came too far to turn back now
Came too far to turn back now
Ain't no body gonna stop me
Ain't no body gonna stop me
Came too far to turn back now
Came too far to turn back now

Ain't no body gonna stop me
Ain't no body gonna stop me
I won't, let you lock me down
I won't, let you push me 'round
I won't, let you stop me now
I won't, 'cause I came too far
I won't, let you ruin my day
I won't, let you stop my pain
I won't, no not today
I won't, 'cause I came too far
I won't, I won't
I won't, I won't
I won't, I won't
