

# Like Me

Colby O'Donis

[Verse 1] Girl I know you're bad and you know that you can have it  
And he got what you want, he got what you want  
Yeah he got swag get you this and get you that  
but he's not me No no no no got me thinking back to the moments that we had  
How we used to love said I want it all back, I want it all back  
Cause I've been missing you and me we had crazy chemistry  
now it's just a memory why, why? Though we couldn't work it out  
Used to know what I'm about it's hard to figure out  
Let me tell you that  
[Chorus] Even if it's late at night you can call me anytime  
I'm the one that's on your mind cause he doesn't do it right  
You ain't gotta stress it ain't no second guessing  
I'm the one that's on your mind  
Cause he doesn't do it like me like me like me like me like me like me  
x2 Ain't nobody do it like me  
[Verse 2] You don't have to ask you already know that  
you're the girl that I want, you're the girl that I want  
and got them all mad but the doings all bad  
but it is not my fault no no no, cause I can't get away  
can't do without you When we met I thank the Lord that I found you  
Now you're gone like the wind faking of my imagination yeah  
Cause I've been missing you and me we had crazy chemistry  
now it's just a memory why, why? Though we couldn't work it out  
Used to know what I'm about it's hard to figure out  
Let me tell you that  
[Chorus] Even if it's late at night you can call me anytime  
I'm the one that's on your mind cause he doesn't do it right  
You ain't gotta stress it ain't no second guessing  
I'm the one that's on your mind  
Cause he doesn't do it like me like me like me like me like me like me  
x2 Ain't nobody do it like me  
[Bridge] I'm a kid so I'm a place  
It don't matter where I am Baby, all you got to do is just  
let me know  
[Chorus] Even if it's late at night you can call me anytime  
I'm the one that's on your mind cause he doesn't do it right  
You ain't gotta stress it ain't no second guessing  
I'm the one that's on your mind  
Cause he doesn't do it like me like me like me like me like me like me  
x2 Ain't nobody do it like me
