

# All Night Thing

Chris Cornell

She motioned to me  
That she wanted to leave  
And go somewhere warm  
Where wed be alone  
I do not know, whats going on  
But Im guessing its an all night thing If its an all night thing  
Nobody is gonna make it end  
And if it doesnt begin  
Dont worry that Ill that offense  
And if its an all night thing  
And we fall like a tear falling  
To the ground  
Ill never come around  
And youll never hear a word from me  
If its an all night thing I walked along, feeling at ease  
And falling like rain  
Into her scheme  
She wont let on what that will be  
But Im guessing  
Its an all night thing If its an all night thing  
Nobody is gonna make it end  
And if it doesnt begin  
Dont worry that Ill take offense  
And if its an all night thing  
And we fall like a tear falling  
To the ground  
Ill never come around  
And youll never hear a word from me  
If its an all night thing
