Shelter

Bedouin Soundclash

Said it's wrong but you know that
The look on his face means he'll be back again.
(so see you later.)
Saturday on the night train,
With uptown boys who rail cocaine downtown.
Keep her waiting.But it's a long time and you're not home.
Don't you feel like you're alone?
But it's a long time and you're alone.
Don't you know you can come home?You don't feel, but you look fine.
No dial tone on the main line. (say)
Laughing out to no one's joke.
Looking 'round but it's remote,
You won't see no one you know.But it's a long time and you're not home.
Don't you feel like you're alone?
But it's a long time and you're alone.
Don't you know you can come home?Running, wait, don't you look 'round.
Running, running, running east bound, downtown.
Got nothing for you.
Shelter is waiting for ya!
I'm still waiting for ya to come home.But it's a long time and you're not home.
Don't you feel like you're alone?
But it's a long time and you're alone.
Don't you know that you can come home.
Shelter!
