Astrogirl's Dilemma

S.P.O.C.K

She's been working for a long, long time
she wants to get away but she doesn't earn enough
nobody's tipping her that muchWhen she works she fakes it all
but underneath her skin she's got a longing heart
which is hoping for a new start
She's in love again
but she wouldn't know to whom choose
She's in love again
but she's afraid to loose
One of them is the Cosmic Boy
he makes her laugh but it's hard for him to settle down
he doesn't want to be boundThe other one is a stormtrooper
he's a real man but has problems with his attitude
sometimes he's very, very rude
She's in love again
but she wouldn't know to choose
she's in love again
but she's afraid to loose
