Stop To Think

Obraskai

You never wanted to go
You didn't dare to let me know
The luck could turn back to my side
I knew my wishes qualified
So why won't you let me show who I am
I'm not doing this because of you
And I'm not here because you want me to
I know you're feeling you can see me through
Well, it's all lost the moment I stop to think
Now I'm leaving you in fear
But I will come back every year
To be the fifth wheel you don't need
I'll be a reason for you to speed
So why won't you let me show who I am
I'm not doing this because of you
And I'm not here because you want me to

I know you're feeling you can see me through
Well, it's all lost the moment I stop to think
The moment I stop to think
Same moment as I start to sink
And sometimes I wish I were like you
Were like you
So why won't you let me show who I am
I'm not doing this because of you
And I'm not here because you want me to
I know you're feeling you can see me through
Well, it's all lost the moment I stop to think
I'm not doing this because of you
And I'm not here because you want me to
I know you're feeling you can see me through
Well, it's all lost the moment I stop
