

Spring (Widescreen)

[RMB](#)

The spring is my love,
There is a spring rustling in the trees,
Fill my heart with delight, rebirth of all kind,
Sceneries which fulfill my soul,
It will tranquilly last forever in my mind
The wind, the birds, the love, the air,
the breeze, the dune, the spring in me
The wind, the birds, the love, the air,
the breeze, the dune, the love in me
The spring is my love
The wind, the birds, the love, the air,
the breeze, the dune, the spring in me
The wind, the birds, the love, the air,
the breeze, the dune, the love in me
