

Invisible Reality

There For Tomorrow

I saw just what it does
When it's too hard for you to face it
Still pushing you to make it
It's been no new news to me
'Cause it's all been done before
Four years and we're still counting down
Until' all your precious time is wasted
It's been nothing new to me, to me, to me.

We still haven't grown accustomed to the sound
As they all begin to drown you out
It's all been done before

When your deadlines become my days and nights
I'll take all your favorite lines
(When you needed it the most)
As your deadlines take tonight

And you were startled by the fact
That you c-could've had it better off by now
It's not over until the quiet all come down
Oh yes maybe it's too plain to stand on solid ground
It got old, but you can't blame it all on me, on me, on me.

We still haven't grown accustomed to the sound
As they all begin to drown you out
It's all been done before

When your deadlines become my days and nights
I'll take all your favorite lines
(When you needed it the most)

Please don't give up

When your deadlines become my days and nights
I'll take all your favorite lines
(When you needed it the most)
As your deadlines take tonight

I saw just what it does

When it's too hard for you to face it
Still pushing you to make it
It's been nothing new to me, to me, to me.

We still haven't grown accustomed to the sound
As they all begin to drown you out
It's all been done before

When your deadlines become my days and nights
I'll take all your favorite lines
(When you needed it the most)
As your deadlines take tonight (x2)

All your favorite lines
(When you needed it the most)
As your deadlines take tonight
