Aye, baby it don't even matter, we can do whatever you wanna do
Yeah, I wanna do you,
Right now,
Right here,
Yeah,
Yeah
Come here I can tell by lookin' at you,
That thing is good, good good good
I can't help myself around you,
I wanna do everything I ain't gonna front, I'm up front
Blatant 'bout what I want
I want you here right now, baby Lookin' at me the way that you do
You want me too,
And I don't wanna waste no time So make it rain and let it fall down on me
I can't believe that our love's so good, so good
Your love's so good, so good, so good to me Outer space, I'm on a high too
That shit is good, don't let me come down
Put your lips where I can find you,
And take me now, oh now Run it deep like a runnin' back
Make you want it back, make me want it bad, make me want you bad, baby
'Til the sun comes up and sky's blue,
Mm another day, I'll take it babe Just make it rain and let it fall down on me
I can't believe that our love's so good, so good
Your love's so good, so good, so good to me You pullin' on my hair
You right between my legs
You kissin' on my neck
I'm scratchin' on yo' back
I say baby go 'head
Go hard, I say go head (I said go hard, I say go 'head)
Baby take it there! Just make it rain and let it fall down on me
I can't believe that your love's so good
Your love's so good
Your love's so good

Your love's so good ooh
