

Northern Lights

Cider Sky

Every time I close my eyes I can touch the colors around me
Suddenly I realize everything I thought was impossible is here

And my heart sings in a world so incredible

And everything burns much brighterChorus:

I (I) want to fly (fly) into this beautiful life I think it'd be nice with you

I want to fly (fly) into this beautiful life I think it'd be nice with you, with you, with you, with youFingertips,
northern lights, tracing colors right through the sky

Underneath a lullaby I never felt as bless full as I do here

And my heart sings in a world so incredible

And everything shines much brighterChorus:

I (I) want to fly (fly) into this beautiful life I think it'd be nice with you

I want to fly (fly) into this beautiful life I think it'd be nice with you, with you, with you, with youSet the night
on fire if we want to

Hanging out with the stars and the big moon

I'm very well thank you how do you do

Set the night on fire if we want to

Hanging out with the stars and the big moon

Pull them down for a dance with your lassoI think it'd be nice with you, with you (X4)
