I Never Wanted To

Saosin

We've had one chance to take back
But over and over again
(I'll clean your wounds tonight)
So we can rewind it all 'til I come inside
I'll tear in two and never lie to you
('Cause you wouldn't take me home)
Your eyes are yet to be clear now
('Cause you wouldn't take me home)
You were right and I wasn't listening
(I never told you what you were missing)
I never wanted to hear
(I never wanted to)
We are the only ones we are running from
I never wanted to hear
(I never wanted to)
We are the only ones we are running from
This was the only way we knew
How to make everything just okay
(I'll make it up tonight)
The sun was two steps too close with his waking eyes
We'll make believe that everything's all right
('Cause you wouldn't take me home)
Your eyes are yet to be clear now
('Cause you wouldn't take me home)
You were right and I wasn't listening
(I never told you what you were missing)
I never wanted to hear
(I never wanted to)
We are the only ones we are running from
I never wanted to hear
(I never wanted to)
We are the only ones we are running from
I never wanted to hear
(I never wanted to)
We are the only ones we are running from
I never wanted to hear
We are the only ones we are running from
I want to break it off
We should stop 'cause there's nothing going on

(On)
I never wanted to hear
All the things that you told me
I never wanted to hear
(I never wanted to)
We are the only ones we are running from
I never wanted to hear
(I never wanted to)
We are the only ones we are running from
I never wanted to hear
(I never wanted to)
