Hologram

Altöm

I-I-I- gotta make make my way Way way through all these people. I don't play pay all this money Just so so I I can see you I'm about to act a dog-on fool, Unleash the dawg on you. I'm about to bump bump Chicky bom bom bom on you. Run it back: uoy no pmub pmub ykcihc mob mob I've got technology, X-Ray vision any game I can see through. I get static every time you speak, Frequency got to be equal. I'm tired of playing, Can't even hear the stuff you saying.

Cuz it's like round round round round round round

Hologram, I'm pushing up close

But it's hard to get to ya.

Hologram, there's a glitch

In the system tell me

What I gotta do now.

Oh damn (Hologram)

Illusion, confusion, I'm losing ground (Oh oh oh...)

Hologram (Hey hey hey...)

Hologram (Hey hey hey hey...)

Hologram (Hey hey hey...)

Oh oh oh...

Hologram

You want me to flip the switch on

So I I can be your victim.

I ain't gotta slip up

Like going it outside in the rain

With no umbrella.

What the hell you take me for?

I'ma take a different route.

I'm about to bump bump

Chicky bom bom bom on you.

Bang bang choo-choo train, Baby put that thing on me. You're about see my main frame,

Not the cage.

You about to see another side of me.

And she'd be like T minus 7,

Before my system shut us down.

Matter of fact I think

I'm about to shut down right now.

Hologram, I'm pushing up close

But it's hard to get to ya.

Hologram,

There's a glitch in the system

Tell me what I gotta do now.

Oh damn (Hologram)

Illusion, confusion, I'm losing ground (Oh oh oh...)

Hologram (Hey hey hey...)

Hologram (Hey hey hey hey...)

Hologram (Hey hey hey...)

Oh oh oh...

Hologram

I'm tired of playing with you,

Right now I think your times up.

Giving mixed signals

That I don't have control of.

I'm losing my mind,

Perfect model before my time.

Download to my instinct data,

Give me a socket I can plug in (Hologram)

Hologram, I'm pushing up close

But it's hard to get to ya.

Hologram,

There's a glitch in the system

Tell me what I gotta do now.

Oh damn (Hologram)

Illusion, confusion, I'm losing ground (Oh oh oh...)

Hologram (Hey hey hey...)

Hologram (Hey hey hey hey...)

Hologram (Hey hey hey...)

Oh oh oh...

Hologram
