

# Farting with a Walkman On

## Bloodhound Gang

I know you're gonna play me when you get wind  
I heard you're full of shit so I've been duped again  
But if you cover your ass with the same old song  
You might as well be farting, farting with a walkman on I know you're gonna play me when you get wind  
I heard you're full of shit so I've been duped again  
But if you cover your ass with the same old song  
You might as well be farting, farting with a walkman on I know you're gonna play me when you get wind  
I heard you're full of shit so I've been duped again  
But if you cover your ass with the same old song  
You might as well be farting, farting with a walkman on  
Give me a fuckin' break Farting with a walkman on  
Farting with a walkman on  
Farting with a walkman on  
Farting with a walkman on
