Rockabilly World

Stray Cats

Some times I just gotta get away
To the place that rocks all night and all day
So hop right into my pink cadillac
Hey pretty baby you are never never never gonna come back
Come on little baby won't you be my girl
Won't you come and live in my rockabilly world
Jump into my arms and I'll give you a twirl
You're just gonna love it in my rockabilly worldMy misery train is pullin' out
Well I lose control and I start to shout
There's a dance tonight in the killer's barn
Don't you be afraid I'm gonna do you no harmWell come on little baby won't you be my girl
Won't you come and live in my rockabilly world
Jump into my arms and I'll give you a twirl
You're just gonna love it in my rockabilly worldWe're gonna take the old route 66
Well cruisin' to Vegas gonna get my kicks
I'm wearing pink black pants and I greased my hair
I'm the rockingest cat found anywhereWell come on little baby won't you be my girl
Won't you come and live in my rockabilly world
Jump into my arms and I'll give you a twirl
You're just gonna love it in my rockabilly world
