

Leftovers

Girlicious

[Chrystina]Hope she like my, hope she like my
[[Girlicious]]Leftovers, leftovers, leftovers
[Chrystina]Hope she like my, hope she like my
[Natalie]Ive been slaving in this kitchen all night
But no matter what I make I cant satisfy your appetite
Seems like every time you do something bad we start over from scratch
But it never seems to turn out right, no
[Tiffanie]Cause were here alone, everything must go well
[Natalie]And youre nowhere in sight, table for one tonight
[Tiffanie]I made up my mind, this gon' be the last time
[Natalie]No, no, no more waiting, I'm just so sick of this day
[Girlicious]I said this kitchen's closed, there's nothing you can do
To fix what you did or what you're putting me through
You got me all fired up but my stove's turned off
So let your new little missus know that I'm breaking you up
She got my leftovers, leftovers, leftovers
[Chrystina](hope she like my, hope she like my)
[Nichole]I hope your new girl doesn't mind you and yells
That's the choice that you choose, cause you settled for the drive through
So don't bother turning your car around, cause I'm calling you out
And I gotta get away from you, cause tears run down
[Tiffanie]Cause we're here alone and the TV's blown down
[Chrystina]And you're nowhere in sight, too late to make this right

[Tiffanny
I made up my mind, this gon' be the last time
[Chrystina]I waited up for you, there's nothing can do
[Girlicious]I said this kitchen's closed, there's nothing you can do
To fix what you did or what you're putting me through
You got me all fired up but my stove's turned off
So let your new little missus know that I'm breaking you up
She got my leftovers, leftovers, leftovers
[Chrystina](hope she like my, hope she like my)
[Nichole]Leftovers, leftovers, she got my leftovers, oh
(it's coolin' down)
It's Coolidge' down
(it's in the refrigerator, now I'm thawing you out)
Thawing you out
(it's coolin' down, it's coolin' down)

I'm sick of trying
(it's in the refrigerator, so I -)
[Chrystina]Hope she like my, hope she like my
[Girlicious]I said this kitchen's closed, there's nothing you can do
To fix what you did (what you did, what you did)
Oh, I said this kitchen's closed, there's nothing you can do
To fix what you did or what you're putting me through
You got me all fired up but my stove's turned off
So let your new little missus know that I'm breaking you up
She got my leftovers, leftovers, leftovers
She got my leftovers, leftovers
She got my leftovers, oh
(the kitchen's closed, you left me alone)
(now your things are gone, cause it's over, over)
(the kitchen's closed, you left me alone)
(now your things are gone, cause it's over, over)
[Natalie]I'm done, I'm done
