

Starbucks!

Bobby Bones & The Raging Idiots

I got the sleepy in my eyes
The foggy in my brain
I know I'm late for work
But I gotta stop along the way
I stop to get my coffee
Make my order like a boss
A venti double mocha
I don't care about the cost

I'll take a pumpkin spice
And can you make it in a kettle
And take it and shake it up
And add some fruity pebbles
There's a tip jar on the counter
I'm about to make it rain
I'm Bobby, it's not Booby
Please stop messin' up my name

Starbucks!
I be fillin' up my cup
Starbucks!
Keep jackin' me up
Starbucks!
10,000 degrees
And yeah I'll take a danish I need somethin' to eat

I might be holding up the line
As I might be a little choosy
And I do appreciate
The fact they use a paper koozie
Shout out to my home girl
Her name is Theresa
We ain't never met before
But she's my favorite barista

I double-check my lid
I take my first sip
If I didn't have a mouth
I'd probably take it through a drip
I'm a little eco friendly

I don't need no receipt
Ain't gettin' charged for no data
Cause the wifi's free!

Starbucks!
Be fillin' up my cup
Starbucks!
Keep jackin' me up
Starbucks!
10,000 degrees
And yeah I'll take a danish I need somethin' to eat

I get the tall, that's the small
But the venti and the grande
That don't make no sense at all

Starbucks!
Be fillin' up my cup
Starbucks!
Keep jackin' me up
Starbucks!
10,000 degrees
And yeah I'll take a danish I need somethin' to eat
