

# Above Ground

R. Scott

My head is thumpin'™ from the fun that we had  
The smell of your perfume on my hands

My breath is something like an ember from hell  
But still I rise to this occasion of life

I'm still above ground

Standing upright doing all that I can  
Moving forward - Hallelujah, my man

I'm still above ground

My heart is pumping as I walk into the room  
My pulse is jumping 'cause I know you'll be there soon  
My soul is burning for just a little bit of your love  
I want to give, I want to give it all to you

While I'm still above ground

---
