

Sound of Love (The Twelves Radio Edit)

Husky Rescue

Hear it through the ceilings*
And through the night
Those sweet sounds of silence
Till morning light
Hear it through the windows
And through the walls
Forever changing it all
Our love (love), our love (love)
Love, the sound of love
Love, the sound of love
Playing in my mind
Playing when i find you
Can't get too close to you
Ain't gonna try
You're not the one for me
Don't wanna lie
No, No, that's a no-no
I'd better go
Unless we can play it
Your stereo
Our love (love), our love (love)
Love, the sound of love
Love, the sound of love
Playing in my mind
Playing when i find you
Our love (love), our love (love)
love, the sound of love
love, the sound of love
playing in my mind
playing when i find you
