

Super Low

Warehouse

If memory serves me right
You're stuck in a place in time
You're reeling me in
And wringing me out
If memory serves me right
You're stuck in a place in time
You're reeling me in
And wringing me out
I can't destroy the things
They keep me alive
And I can't destroy the things
That lead to where you lie
Give me in completely
Give me in completely Gouge my eyes
Rope my hands Gouge my eyes
And make me see
Another way
The razor blade
That took your life
It takes mine
It takes time I can't destroy the things
They keep me alive
And I can't destroy the things
That lead to where you lie
Give me in completely
Give me in completely
Walking fast you'll never know
Which way this will end
