

Pink Ego Box

Muse

It's gonna be okay
Can't afford another day
At fifty bytes per second
I've never seen your face
I've never heard your voice
But I think I like it
When you instant message me
With a promise
I can feel it
I can tell you're gonna be
Just like me
My eyes are gone strain
My heart is feeling pain
At fifty beats per second
I've never seen your eyes
I've never heard your voice
But I think I like it
When you instant message me
With a promise
I can feel it
I can tell you're gonna be
Just like me
Just like me
