Satellite (No Fixed Address) L.O.V.E 2014

Nickelback

I know it's late but something's on my mind
It couldn't wait, there's never any time
'Cause life slips by without a warning
And I'm tired of ignoring all the space that's between you and I
Let's lock the door behind us,
They won't find us
Make the whole world wait
While weDance around this bedroom
Like we've only got tonight
Not about to let you go
Until the morning light.
You can be my whole world
If I can be your satellite.Let's dance around this bedroom
Like tonight's our only night
Dance around this room,
I'll be your satellite
Dance around this room,
I'll be your satellite.Do you recall how long it must have been
Since any room held only you and me?
And every song that sings about it
Says that we can't live without it
Now I know just what that really means.
Let's lock the door behind us,
They won't find us
Make the whole world wait
While weDance around this bedroom
Like we've only got tonight
Not about to let you go
Until the morning light.
You can be my whole world
If I can be your satellite.Let's dance around this bedroom
Like tonight's our only night
Dance around this room,
I'll be your satellite
Dance around this room,
I'll be your satellite.Dance around the moon,
You and I every night
Dance around this room,
I'll be your satelliteI cant believe that days took into years

I hate to see the moments disappear
But tonight the sand is stopping
Take the hourglass and drop it
So we can stay
Inside this atmosphereDance around the moon,
I'll be your satellite
Dance around this room,
I'll be your satelliteDance with me around the moon,
I'll be your satellite
Dance around this room,
I'll be your satelliteLet's dance around this bedroom,
I'll be your satellite
Let's dance around this bedroom,
I'll be your satellite
Let's dance around this bedroom,
I'll be your satellite
Let's dance around this bedroom,
I'll be your satellite
