

# The Saddest Song (I've Got)

Annie Lennox

Darling, are you feeling  
The same thing that I'm seeing  
The troubles of the day  
Took my breath away  
Took my breath away Now you're no longer talking  
And I'm no longer hearing  
There's nothing left to say  
Said it anyway  
Said it anyway And I want you not  
I need you not  
I'm dying  
'Cos this is the saddest song I've got  
The saddest song I've got Darling, are you healing  
From all those scars appearing  
Don't it hurt a lot  
Don't know how to stop  
Don't know how it stops Now there's no sense in seeing  
The colors of the morning  
Can't hold the clouds at bay  
Chase them all away  
Chase them all away And I'm frozen still  
Unspoken still  
Heartbroken  
Remembering something I forgot  
Something I forgot
