

Lone Star Song

Grant Lee Buffalo

Theres a bullet in the heart tonight
In the heart of Texas
They shout it to the Dallasites
We are rollin' homeThey shot an Angel in mid-flight
And now she wont protect us
They shout it to the Bedlamites
We are westward hoPray the holy war is ending
Like in the films of Hollywood
And the Angels are descendingLike Koreshians said
They would before too long
Sing a lone star songThey had him nailed up to a T
With a T for Texas
His disciples with artillery
They held the fort insideAnd by the time the story broke
Down at Dealey Plaza
Weve already caught the smoke
Read the TV guidePray the holy war is ending
Like the films of Hollywood
And the choppers are descendingLike Ma Reno said
They would before too long
Sing a lone star songLone star song of the south
Words that cant help
But escape my mouthWhen they bring down the house
Day upon day, day upon day
Day upon dayPray the holy war is ending
Like the films of the Hollywood
And the trumpets blast is blendingWith the crack of burning
Wood before too long
Sing a lone star song
Lone star song, lone starLone star song
Sing a lone star song
Lone star easy words
Come on come on
