

# Done With You

## Shannon and the Clams

I count the days that we have spent apart  
I've got a bad liver an' a broken heart  
There's no salvation in the comfort of you  
(Comfort of you)  
And I finally realize you're tearin' me apart  
So help me, save me  
Tell me that the end is near  
Help me, save me  
Tell me that the end is here  
I am done with you  
You've made my life completely miserable  
You drove me to the edge, you've caused me all this pain  
But I always loved you 'cause you're, oh so special  
(Oh so special)  
I'm broken and I'm alone and I can not maintain  
So help me, save me  
Tell me that the end is near  
Help me, save me  
Tell me that the end is here  
I am done with you

I am done with you  
(Done with you)  
I am done with you  
(Done with you)  
I am done with you  
(Done with you)  
(I am done)  
I am done with you  
(Done with you)  
(I am done with you)

I count the days that we have spent apart  
I've got a bad liver and a broken heart  
Help me, save me  
Tell me that the end is near  
Help me, save me  
Tell me that the end is here  
I am done with you  
Because you and me are through

You couldn't help me, you couldn't save me  
Now I know the end is here  
I am done with you
