

# Good Morning

## The Kicks

I took a look  
In your book  
Read a few lines and I was hooked  
I didn't know love until I met you  
I was a mess  
I must confess  
That long black hair and a long black dress  
I think that I was blind until I met you  
Good morning sunshine  
Greet the day and the light  
Its time to go outside  
If you could keep steady  
Get up and get ready  
Its time to go outside  
I crossed the lines  
I made you cry  
I must have done it a thousand times  
I guess that love is just a mountain  
All the things running through my head  
All the things I wished I'd said  
I'd be a fool to think that I could ever let you go  
Good morning sunshine  
Greet the day and the light  
Its time to go outside  
If you could keep steady  
Get up and get ready  
Its time to go outside  
With you
