

God's Great Mistake

Big Country

Not enough answers to too many questions
But guns are the last things we need
So we better watch the news
For we all have minds to feed
For the latest in monsters, a word from our sponsors
I write to the weather map guy
Who doesnt have much hair
But hes got a matching tie
Put the cat out and take off the phone
And leave a light on for the last one home
Were all a part of Gods great mistake
The problem in the plan
Were all a part of Gods great mistake
We get home if we can
Theres a police car parked outside a schoolyard
Take home the law in a tin
Are they keeping bad guys out
Are they keeping bad guys in
Put the cat out and take off the phone
And leave a light on for the last one home
Were all a part of Gods great mistake
The problem in the plan
Were all a part of Gods great mistake
We get home if we can
I believe that democracy is meant to keep us free
I believe that Jesus Christ is who hes meant to be
I believe a living Elvis will soon appear on my TV
Put the cat out and take off the phone
Leave a light on for the last one home
Were all a part of Gods great mistake
The problem in the plan
Were all a part of Gods great mistake
We get home if we can
Were all a part of Gods great mistake
The problem in the plan
Were all a part of Gods great mistake
We get home if we can
