Stationary

Man Alive

I'll say
Just about anything
I've got
This paper and a penIt's quite
The plot to do me in
Short fight
And stationary winsTakes time for all that you want to say to come out right
That's fine until every word becomes immortalized
I find the more you can see, the more I realize
I need timeI'll try,
Try not to think of it
Just once
Ignore the consequenceWhy lie?
There's just no other way
To write
The things i want to sayTakes time for all that you want to say to come out right (come out right)
That's fine until every word becomes immortalized (comes immortalized)
I find the more you can see, the more I realize (realize)
I need timeOften times things I want no one to hear
I must shout
What I want screamed from the rooftops must not
Be let out
So hear what you want
Take what you need
It's yours to own, it's finished with me
And I still believe that I meant everything
At one time
At one timeTakes time for all that you want to say to come out right (come out right)
That's fine until every word becomes immortalized (comes immortalized)
I find the more you can see, the more I realize (realize)
I need time
