My Love

Rusted Root

My love for you will never die
Rise up in this moment assembled in the light
We are like a flower, petaled in delight
Breathe so gently in and out the lightTo wake the love
Give the love away
To wake the love
Give the love away, awayLight over the valley comes to all
See in each other reflection from above
We are like a flower, petaled in delight
Breathe so gently in and out the lightTo wake the love
Give the love away
To wake the love
Give the loveAway on this journey words will pass you by
Holy mistakening hear echoed our cry shalaMy love for you is in my life
Rise up in this moment assembled in the lightTo wake the love
Give the love away
To wake the love
Give the love awayTo wake the love
Give the love away
To wake the love
Give the love away
