Black Dream

Samhain

Who are you that taunts my nights
With darkness and reproach
Are you she
Embracing devils never to awake
Pretty pretty black dream
Give me infinity's kiss
Pretty pretty
Pretty black one
Your lips I hunger for
'Cause I want it
And I need it
Your tongue I hunger for
Want it
And I need it
Black dream can kiss me loose
Oh
Your existence is only that which
Causes inner pain
Cradle lifeless bodies
In the bosom of your hell
Pretty pretty black dream
Give me infinity's kiss
Pretty pretty
Pretty black one
Your lips I hunger for
'Cause I want it
And I need it
Your tongue I hunger for
Want it
And I need it
Black dream can kiss me loose
Whoa go go oh
Black dream, black dream, black dream
Black dream, black dream, black dream
Black dream
When you come I'll be waiting here
