

# Blown Wide Open

## Big Wreck

So I'm all surrounded  
By the things I thought I'd put away  
An' I'm all surrounded  
By the things I thought I'd put away  
An' there's a pile in the closet  
That's where I threw some yesterday  
Maybe under the rug  
That's where I swept some the other day  
So the mess is drawing forces  
Outside I hear them say  
(Just) come out with your hands up  
So we can blow you away  
And I walk out the door  
Get blown wide open  
By the things I'd put away  
And I wasn't even warned  
Just blown wide open  
By the mess is where I lay So I'm all surrounded  
By the things I thought I'd put away  
So I'm all surrounded  
By the things I thought I'd put away  
And if I'm a slob  
I never looked at it that way  
Irresponsible  
When you're not the first to say But I told her I'm sorry  
I never wanted it this way  
Yeah, I still need her  
But the mess won't go away  
And I walk the door  
Get blown wide open  
By the things I'd put away  
And I'm out on the porch  
Just blown wide open  
By the mess is where I lay Yeah, blown wide open  
Blown wide open  
Blown wide open  
Blown wide open  
The gun's still smokin'  
Blood keeps flowin'

Blown wide open  
Blown wide open  
[Why's she going]
