One Last Dance

R5

Tear drops in your hazel eyes
I can't believe I made you cry
It feels so long since we went wrong
But you're still on my mindNever meant to break your heart
Sometimes things just fall apart
So heres one night to make it right
Before we say goodbyeSo wait up, wait up
Give me one more chance
To make up, make up
I just need one last danceFreshman year I saw your face
Now its graduation day
Said we'd be friends, till the end
Can we start again?So wait up, wait up
Give me one more chance
To make up, make up
I just need one last danceNa na na na oh-oh
Na na na na oh-ohI heard you're heading east
So lets just make our peace
So when you think of me
You'll smile, and I'll smileSo wait up, wait up
Give me one more chance
To make up, make up
I just need one last danceSo wait up, wait up
Give me one more chance
Just one song, then I'll move on
Give me one last dance
I just need one last dance with youOh-woah
