

Where Are We Going From Here

Blackmore's Night

On a long road, miles to go
Its winding and cold and its covered with snow
But I ask you what we all want to know
Where are we going from here Lines on my face , lines on my hands
Lead to a future I don't understand
Some things don't go as they're planned
Where are we going from here Tracing the trails through the mirrors of time
Spinning in circles with riddles in rhyme
We lose our way, trying to find
Searching to find our way home
Trying to find our way home As the day dies, with tears in our eyes
There's too few hellos and too many goodbyes
Silence answers our cries where are we going from here
