

Termites

NRBQ

(Termites) too many termites, not enough wood
(termite) too many people up to no good
(termite) all through the night they chew and bite
(termite) i'm tellin' you man it just ain't right (termite) they've got a hunger that can't be filled
(termite) there ain't nothin' they won't kill
(termite) they got a thirst that can't be quenched
(termite) i'm tellin' you man it makes no sense there used to be butterflies of every size
and crickets were chirpin', too
but now you will be lucky if you're still alive
when these guys are through - termites
Dadala dadala dadala dadala dadala dadala dadala
dadala dadala dadala dadala dadada dadala dadala (termite) there's somethin' that's yours that they gotta have
(termite) you can't find a place that ain't in their bag
(termite) there's nothin' sacred and nothin' is safe
(termite) i'm tellin' you man it's such a waste
They chewed up the forest and chewed up the rain
and ate up a hole in the sky
they chewed up alaska and gobbled up maine
and ate the bridge on the river kwai - termites
