

Very Hard

Lud Foe

My Watch is like my chain shining very hard,
Race the cars you drive my engine very large,
Lost his life cause he was acting very hard,
She gave me brace she cold I know she very smart,
And when I shot bullet breaking body parts, Up I be so I be rolling very hard,
Bolly club you lucky if u survive,
We take love and show these niggas who we really are,
My big badge and grind her thighs her booty large,
In the club and bought a bar with monterage, They tell lud and we move work we trap stars,
Free my guys they doing time behind bars,
They be blind I see my watch can tell time,
Yes Your bitch suck my dick when she was mine, I talk that shit I pull that bit for 2 lines,
Come in crying I did that shit a few times,
They know me don't fuck with me so stop trying,
That's knocked over you smoke mans You not high,
