

In Us I Believe

[RyanDan](#)

At the first sight of you
I knew that you were special
Oh you left me warm but confused
I loved you so that I
Could not breathe
Because in us I believe When we are apart
I still can feel you with me
I can trace every line in my mind
You are etched all over the heart of me
Because in us I believe And we have all the time in the world
You and me
Because in us I believe
Yes, in us I believe
