Wish I Was Dead Pt.2

Shout Out Louds

I want to hear drums and my hearts a drum
I guess we never know what to become
Well I didn't know that this was such a problem
It's gonna get better when we solve themI try to try to lose my head
But I wish, wish, wish that you were always there
And I try to try to lose my head
But I wish, wish, wish that I was deadI'm on birthday cards and on a big trip
If this wouldn't happen then I'd bite my lip
But I didn't know that this was such a problem
It's gonna get better when we solve themAnd I try to try to lose my head
But I wish, wish, wish that you were always there
And I try to try to lose my head
But I wish, wish, wish that I was deadBut I didn't know that this was such a problem
It's gonna get better when we solve themAnd I try to try to lose my head
And I wish, wish, wish that you were always here
And I try to try to lose my head
And I wish, wish, wish that I was deadWish I was dead
