

Cool Like Kurt

Big Deal

My words won't work
My words won't work
I make things worse
You are cool like Kurt
My world won't work
My world won't work
You make things worse
You are cool like Kurt
Take me to your bed
Don't take me home
I wanna be old,I wanna be older
Take me to your bed
Don't take me home
Before this is old,before this is over
You play your songs,
I am gone,I am far gone
I am all grown up
I swear its old enough
Take me to your bed
Don't take me home
I wanna be old,I wanna be older
Take me to your bed
Don't take me home
Before this is old,before this is over
And I am dreaming of you
And I am dreaming of you
And the lights come,and its over
You are not here
And the lights come,and its over
You are not real
What's in a number?
What's in a number?
Take me to your bed
Don't take me home
I wanna be old,I wanna be older
Take me to your bed
Don't take me home
Before this is old,before this is over
Take me to your bed

Don't take me home
I wanna be old,I wanna be older
Take me to your bed
Don't take me home
I wanna be old,I wanna be older
Take me to your bed
Don't take me home
I wanna be old,I wanna be older
Take me to your bed
Don't take me home
Before this is old,before this is over
