Love Is Stronger

Jason Crabb

You went down one of those roads
Nobody should have to go
Life sure got real, real fast
You couldn't see your way out
Your world was under a cloud
All you could feel was helpless
You didn't think you could do it
Oh but you got through itchorus: You kept faith when you didn't have a prayer
Found hope when it wasn't even there
Up against the impossible you
just wouldn't back down
You kept fighting
That heavy cross you carried
Ain't weighing you down any longer
Life is tough
But love is strongerYou're finally facing the sun
Your brighter days have begun
Look at you now, just soaking it in
You're smiling, you're laughing
You're happy, you're living
Every moment surrounded by
All the beautiful reasons whyRepeat Chorus Twice
