

# Listen

## Five Foot Thick

What the fuck do they know? [Repeat x8]

I know it's like this but that Don't it has to be  
You think I'll sit and take this verbal blaspheme?  
Well my friend you've pegged me dead wrong  
Hide your face in print but I can't bite my tongue

You'd like to think you got me all figured out  
Think you know me beyond the shadow of a doubt  
Call me out though I said I'm not your enemy  
I'll tell you again you haven't heard the last of me  
You hear these words but you miss where I'm coming from  
What's said is said and we all know what's done is done  
Sit back and judge what I feel, think, do and say  
That's quite a trick when you don't even know me

You don't know me so don't judge me  
I never asked you for your opinion  
Still you question my incentive  
And got the balls to say I've got nothing to say  
Why don't you shut up and listen [Repeat x4]  
Bastard

Shut the fuck up and listen to this  
And say this one more time and when I'm done  
You can quote this fucking line "I don't give a fuck  
About you or what you have to say" and that's truth  
But I know when it's over you'll be sittin' satisfied  
I got pissed so you got your fucking rise  
We're getting close to your 14:59 how's it feel?  
Don't explain you're out of time

I'm sure you'll get a shot to sound off, make all the  
Noise you want it's just talk It doesn't matter now  
Hell I forgot your name you'll come and go and  
Come and went so what's to say

You don't know me so don't judge me  
I never asked you for your opinion  
Still you question my incentive

I've got the balls to say I've got nothing to say  
Why don't you shut up and listen [Repeat x4]  
Bastard

Well now it's sad it had to come to this  
Just who the hell do you think you are,  
Defacing me to make a name for you  
Had better watch your fucking back my friend

I have heard enough from clones like you  
With your bitter take on the world I would  
Say it's you who has nothing worth a shit to say  
Just set the record straight

---
