One Small Star

John McDermott

When I need to feel you near me
I stand in this quiet place
Where the silver light of countless stars
Falling on my face
Though they all shine so brightly
Somehow it comforts me to know
That some that burn the brightest
Died an eternity agoChorus
But your light still shines
It's one small star to guide me
And it helps me to hold back the dark
Your light's still shining in my heartI'm learning how to live without you
And I never thought I could
And even how to smile again
I never thought I would
And I cherish your heart's memories
Cause they bring you back to life
Some caress me gently
And some cut me like a knifeChorusCan your soul be out there some where
Beyond the infinity of time
I guess you've found some answers now
I'll have to wait for mine
When my light joins with yours one day
We'll shine through time and space
And one day fall on a distant age
Upon some stranger's faceBut your light still shines
It's one small star to guide me
And it helps me to hold back the dark
Your light's still shining in my heart
Your light's still shining in my heart
