

Television

Warrior Soul

Take me out for the super future
Telling you, man, I'ma going to use her
Let me go and I'll slide like rayon
Stuck with you and I'm stuck with nothingTake me out to the universe
Ya know ya can't stop me from loving you
Take my heart, let the pieces fall in
The star bright sky and a piece of youCheck out, baby, she's a riding the missile
Fall out trigger, crazy pull on the pistol
Last year happy just a ruling the scene
Now they're blowing their brains to piecesTake me out to the universe
Ya know ya can't stop me from loving you
Take my heart, let the pieces fall in
The star bright sky and a piece of youYeah man, you know I'm sick to death right now
Can't believe it, what the hell is wrong with you?
All I believe in, take the pretty pill
Man, I'm riding the wave inTelevision you got a vision
Television you got a vision
Television you got a vision
Television you got a visionTake me out to the universe
You know I'm moving too fast for the human racing
No one sees me when I'm falling
Take my heart and a piece of youTelevision you got a vision
Television you got a vision
Television you got a vision
Television you got a visionScreens like mansions on concrete steels
Break the will and ride the people
New gods give for you to heal
Too bad you will never feelGet down, I wanna ride the wheel right now
And if you see me drop a line and help me out
Riding a vision, take a look man for the new incision
Ride a vision you're on a mission
Crawl like a dog and beg for forgivenessTake me out to the universe
You know I'm moving too fast for the human racing
No one sees me when I'm falling
Take my heart and a piece of youTelevision you got a vision
Television you got a vision
Television you got a vision
Television you got a vision
